

Youth Suicide Prevention and Early Intervention Training

Attention all Foster/Adopt Parent Associations in Tennessee, we have a unique opportunity to receive training for resource parents on Youth Suicide Prevention and Early Intervention Training through the Tennessee Suicide Prevention Network. The training will take approximately 2 hours, can be completed during Association meetings and each foster parent participant will receive a certificate to document the two hour training. This training will be used towards your annual training hours.

Association Officers please contact Dustin Keller, Project Coordinator at 615-297-1077 ASAP to set up the training session.
